

BATTLES OCCUR
AT MANY POINTS

Strict Secrecy Surrounds Operations Near Adrianople.

OFFICIAL NEWS IS LACKING

Bulgarian Newspapers Report Heavy Fighting Around Adrianople and Kirk-Kilisseeh—One Rumor Says Two Thousand Bulgarians Were Killed and Four Thousand Wounded.

London, Oct. 23.—An almost impenetrable veil conceals the most interesting operations of the war—those in the vicinity of Adrianople. No official account of any kind bearing on these movements has yet been issued. The Sofia newspapers report heavy fighting around Adrianople, and Kirk-Kilisseeh, to the east, and three forts in the vicinity of Adrianople, captured.

According to one rumor 2,000 Bulgarians were killed and 4,000 wounded in a desperate engagement outside Kirk-Kilisseeh.

It is quite clear, however, that all reports of the fall of Kirk-Kilisseeh and the cutting of communication with Constantinople are quite unfounded.

Fighting of a more or less serious character continues at all points along the extensive frontiers and an important battle is impending in the Kumanova district between the Servians and Zekki Pasha, who, according to a Constantinople report, which is probably exaggerated, has 100,000 men and strong artillery.

A Constantinople dispatch gives a report that the battle has begun practically all along the line from Adrianople to Kirk-Kilisseeh, the Turkish troops advancing and the Bulgarians falling back with heavy losses.

The Montenegrins apparently are making slow progress in the direction of Scutari. Podgoritz dispatches say the bombardment of Tarabosch continues, but, although the fort has been greatly damaged, there is no sign of yielding.

In naval matters the honors so far are with the Greeks, who have captured Lemnos, thus obtaining a base from which they can attack the Turkish squadron located at it ever emerge from the Dardanelles. Seemingly, however, the Turks are not disposed to leave the Black sea and risk an encounter with the Greek fleet.

BULGARS SLAY MANY TURKS

Muslims Caught Between Two Forces Reported Defeated.

Sofia, Bulgaria, Oct. 23.—The newspapers report that the Bulgarians have captured several important positions around Adrianople and Djumbala after severe fighting, but official confirmation is lacking. These accounts represent that the Turks are retreating from the three forts adjacent to Adrianople.

A Bulgarian force attacked the Turks retreating from Djumbala, which is due south of Sofia on the Struma river. Many Turks were killed, hundreds were taken prisoners and three Gatling guns were captured. The Turks were caught between the Bulgarian troops and a band of Bulgarian irregulars and were unable to escape, owing to the irregulars dynamiting a bridge over the Struma between Djumbala and Novrokop.

Iowa Judge Decides Against the Modern Woodmen.

Des Moines, Mo., Oct. 23.—Proposed changes in the law governing the Modern Woodmen of America is a direct violation of the vested contract rights of the members and is null and void so far as it attempts to change the rates without the consent of the members, according to Judge Charles S. Bradshaw of the equity division of the district court, in an opinion handed down.

The decision was given in a case wherein the insurgent wing of the organization asked the court to set aside and annul certain changes in the articles of the association bylaws adopted by the head camp of the Modern Woodmen of America at an adjourned session in Chicago in January, 1912.

WHITE SLAVERS SENTENCED

Five Given From Three Months to Two Years in Prison.

St. Joseph, Mo., Oct. 23.—Five men pleaded guilty to charges of white slavery in the federal court. One of the cases grew out of the recent closing of the vice district in Chicago. Travis McMahon having accompanied two of the women here from Chicago.

McMahon, Joseph Martin of Atchison, Kan., and Harry Chapman were each given jail sentences of three months and Ben F. Carson and Lucie Zadma were each sentenced to two years in the federal prison at Leavenworth.

Mc Morris, Mich., Oct. 23.—Fred Shaw and his wife of this place were killed when an electric car on the Saginaw and Flint line struck their automobile at a grade crossing.

TESTIMONY ENDS
IN BECKER CASE

Dramatic Close of Police Lieutenant's Murder Trial.

PECULIAR SITUATION EXISTS

Court Refuses to Let Defense Rest and Orders District Attorney Whitman to Read Into the Record a Flood of Testimony Against the State's Case From Two of Becker's Witnesses.

New York, Oct. 23.—The case of the state against Police Lieutenant Charles Becker closed abruptly and dramatically with District Attorney Whitman, at the court's command, reading into the record a flood of testimony against the state's case from two of Becker's witnesses.

The two witnesses were Jack Sullivan and Louis Plitt, brother of Becker's so called press agent. Both gave testimony in support of the defense's contention that Rose, Webber, Vailon and Schepps had conspired to send Becker to the electric chair.

"Jack Rose told me," Plitt testified, "that Becker didn't have anything to do with the murder. He said, 'I swear to you on my mother's grave that Becker didn't have anything to do with this. He is innocent, but I've been talking too much and I've got to testify against him.'"

There was but one witness called in rebuttal and none in surrebuttal. William Shapiro, driver and part owner of the gray murder car, was the witness in rebuttal. He added nothing to published versions of his story, except his statement that thirty or thirty-five seconds elapsed after the shooting before he was able to start his car, with the gunmen inside, in flight.

What is said to have been an eleven-hour change of mind on the part of Mr. McIntyre kept Becker from the witness stand.

"I didn't put Becker on the stand," Mr. McIntyre said, "simply because I did not care to dignify the opinion that the charge of murder had been corroborated by credible witnesses. The law says that there can be no conviction on the testimony of accomplices without corroboration. To have put Becker on the stand would have appeared to be an acknowledgment that the testimony of Hallen and Luban amounted to credible testimony, whereas it appeared before the jury that Hallen had served twelve years in state's prison and Luban was brought in shackles from the New Jersey state prison into the courtroom."

Becker said, "I wanted to go on the stand, but my counsel advised against it. I do not believe any jury would convict me on the testimony offered in this case."

GIVES DAMAGING EVIDENCE

Young White Girl Testifies Against Jack Johnson.

Chicago, Oct. 23.—Testimony of Lucile Cameron, the white girl whose association with Jack Johnson, negro pugilist, caused a federal investigation to ascertain if the Mann act had been violated, is said to have been the most direct the grand jury so far has been able to obtain. It is said that the girl, who has turned against the negro, made highly damaging statements.

At the close of her hearing before the inquisitorial body the girl became hysterical and had to be removed to the office of the United States deputy marshal.

The girl finally yielded to the pleadings of her mother, Mrs. Cameron-Falconnet, and consented to renounce the pugilist and return to her home.

RADICALS WIN IN NORWAY

General Election Goes Strongly Against Government.

Christiania, Oct. 23.—The general election is going strongly against the government. Out of the 123 seats the returns for ninety-five are complete. In the case of forty-seven of these the results are indecisive, requiring another election. Of the others only fourteen seats were won by the government while the Radicals captured twenty-nine and the Socialists five.

FIVE MEN MURDER A WOMAN

Three of Mysterious Party of Five Italians Arrested.

Stratford, Conn., Oct. 23.—Miss Rose White of Bridgeport, Conn., was shot to death several miles from here by members of a party of five men, said to be from New York. Three of the party, all Italians, have been arrested. The other members of the party still are at large.

The woman's body was found by the roadside with five bullets in her head. The three men were taken to Bridgeport, where they refused to throw any light upon the shooting.

RENEW INTERVENTION TALK

Taft's Planned Return to Capital Starts Rumor.

Washington, Oct. 23.—Speculation connects the approaching return to Washington of President Taft, contrary to arrangements previously made for a sojourn at Hot Springs, Va., with the critical situation in Mexico and there are even hints of the possibility of the calling of a special session of congress to relieve the president of deciding the question as to whether the time is yet ripe for intervention. Officially, however, the idea is scouted and the determination of the government to adhere to its present policy in regard to Mexico is reaffirmed.

It is understood that Secretary Stimson also is to return to Washington Saturday from New York in advance of original plans.

INSURGENTS CALMLY
AWAITING APPROACH

Mexican Regulars Are Marching on Vera Cruz.

Vera Cruz, Mex., Oct. 23.—The federal forces have begun their advance on Vera Cruz. The rebels under General Felix Diaz, who occupy the city, calmly await their approach.

General Beltran, commander of the federalists, previously had informed the city council that the battle was about to begin. He declined to allow more time for the removal of the non-combatants to the neutral zone.

The boats in the harbor have on board more than 5,000 foreign refugees and 10,000 Mexicans. The United States cruiser Des Moines is lying about 500 yards from the American consulate. The space between is neutral and many of the refuge craft have taken up positions there.

Only thirty-two Americans remained within the town. The foreign consuls went on board the boats.

The American consul, William W. Canada, has assumed leadership of the situation.

Within an hour or two the federalists were only seven miles from the city. General Felix Diaz said that the artillery on the heights in the outskirts would fire on the loyal troops.

TRAGEDY AT DEVILS LAKE

Negro Chased by Posse on Charge of Killing Another.

Devils Lake, N. D., Oct. 23.—With the city in a state of wild excitement a dozen automobiles manned with volunteers armed with rifles, shotguns and revolvers started out on a man hunt to find Robert Jones, a negro, alleged to have shot and killed Dick Haverly. Poses were rushed out in every direction in an effort to locate the man before he got far from the city.

After circling around the city Jones surrendered to employees at the Great Northern roundhouse and was taken in charge by officers.

The colored man was intoxicated and the shooting was the result of a quarrel in the rear of a resort.

Sioux Falls Man Runs Amuck and Attacks Men and Women.

Sioux Falls, S. D., Oct. 23.—While in what the police declare was a drunken frenzy Mars Stensland shot Mrs. Sam Nelson and Mart Rohl here. Two bullets pierced Mrs. Nelson's lungs and she probably will die. Rohl was injured in the hand. Stensland was placed in jail awaiting the outcome of Mrs. Nelson's injuries.

"DOPING" OUT
THE ELECTION.

Rival Artists Hard at Work Furnishing the Goods.

STUDYING POLITICAL SHEETS.

It Is Done Just as In Horse Racing, Prizefights, Baseball and Football. Democratic Senators and Representatives Anticipate a Rush of Office Seekers—Mexican Peace Prospects.

By ARTHUR W. DUNN.

Washington, Oct. 23.—[Special.]—The following is an extract from Webster's Dictionary:

"Dope, n. 2. Any preparation, as of opium, used to stupefy, or, in case of a race horse, to stimulate. (Slang or cant.) Dope v. t. 2. To judge or guess; to predict results of, as by the aid of dope. (Slang.)"

"Political dope" is now being served to the people in large quantities. Some of it may be "used to stupefy" the voters or to "stimulate" them. The political writers are serving their readers with "dope" when they show how the candidate of that particular paper is going to win on Nov. 5. There is "prediction dope," which is found on tap at campaign headquarters and in every partisan newspaper.

The dictionary writers confined the word dope to race track slang. The newer dictionaries will not do so. Racing is dying out, and politics robs the race track as well as the gambling room of expressions. "Stand pat" came from a poker game.

"How Do You Dope It Out?" Every man who is supposed to have a line on politics bears the question. "How do you dope it out?" meaning how do you guess, thus verifying the dictionary on that point. And so we study the dope sheets of politics just as we studied the dope sheets of the recent baseball games and just as we shall be studying the dope sheets of big football contests.

It is never worth while to waste time on small contests. The big races, the big prizefights, the big baseball games, the big football games and the big political contests call for dope, and there are always "dope artists" to furnish the goods.

Rush of Office Seekers Feared. Probably it may sound like "borrowing trouble," but it is a fact that many Democratic senators and representatives are looking forward with apprehension to the rush of office seekers who will come to Washington during the coming winter seeking jobs under the new administration. These Democrats are so sure that Wilson will be elected that they are anticipating what is in store for them.

So far as offices are concerned they have had a nice, easy time for sixteen years. They have been able to handle just enough patronage to take care of certain friends and have not had enough to be burdened with office seekers. Besides they always had the excuse that being in the opposition party they could do nothing. With a Democrat in the White House it will be up to them to make good with their influence.

Few Want Roosevelt.

The declaration of Senator Works for Governor Wilson simply emphasizes what has been apparent to those who know the sentiment among men in congress as to Colonel Roosevelt. Mightily few want him in the White House again. Even those who are supporting him heartily would have preferred some other man if that man could have commanded the following which supports Roosevelt.

Senator Works has remained in Washington and for weeks amused himself as a volunteer member of the Clapp investigating committee. He was really a preferred spectator, sitting with the committee, but with no voice in its proceedings.

Peace Prospects in Mexico.

Prominent Mexicans who have been in Washington—many of them urging noninterference by this country—say that peace will be restored in that country by reason of the revolutionists turning themselves out and the lack of funds to carry on the warfare. United States officials are also hopeful that intervention will not be unnecessary.

Dividing Ohio.

One of the humors of the campaign was shown in a bet which a Republican who lives in Washington made the other day. He wagered quite a sum that Ohio would not give its entire electoral vote to Governor Wilson. "I figure it out this way," he explained. "There are three candidates in the field and there is a mighty good chance that some one of the electors in Ohio may be carried for either Taft or Roosevelt if Taft does not carry the state."

Former Candidate In Court.

In the supreme court room a few days ago the most conspicuous sight, outside of the court itself, was an old lady in a mortarboard cap and a black gown. She was Mrs. Belva Lockwood. How many years ago was it that Belva Lockwood was a candidate for president? My memory is generally pretty good, but I can't tell without looking the matter up. Mrs. Lockwood is one of the pioneers in the woman's rights movement, and as a guarantee of her intense interest she became a lawyer.

SENDS WITNESSES TO JAIL

Judge Landis Takes Filing at Bankruptcy Court.

Chicago, Oct. 23.—As a rebuke to what he characterized as the "slimy dishonesty of the bankruptcy court" Federal Judge K. M. Landis sentenced three men to jail for thirty days for contempt of court and branded as false the testimony of an entire family, including three women witnesses, in a bankruptcy case. The women caused a scene when their husbands were ordered to jail.

INTENDS TO PURSUE
AN UNKNOWN COURSE

La Follette Will Not Vote for Taft, Roosevelt or Wilson.

La Crosse, Wis., Oct. 23.—Senator Robert M. La Follette declared in a speech here that he would not vote for either Taft, Roosevelt or Wilson for president. He likened the suppression of competition through growth of trusts to a huge cancer, treatment of which calls for great skill.

"It is no job for Bull Moose," he exclaimed. "Judging by what has happened in the past four years it does not seem to be a job for an easy-going, amiable fat man. A fellow over in New Jersey has been running a hospital with pretty good success, but he has not treated cancer. I propose to pursue an independent position. I will not vote for any one of these three men for president."

"I am not a free trader; I am still a protectionist, but I believe in gauging the tariff on the basis of the real difference between the cost of production here and abroad," said the senator.

"The Progressive movement is as surely an outgrowth of conditions as was the Revolution or the Civil war. It is a people's movement; a people's cause."

SHOE COMBINE IS ILLEGAL

Canadian Machinery Company May Be Fined \$1,000 a Day.

Ottawa, Ont., Oct. 23.—The United Shoe Machinery company of Canada is a combine and its leases from the parent company, with headquarters in Boston, restricting the use of leased machinery, operate in restraint of trade, is the finding of the board of investigation, constituted under the combine investigating act.

The board recommends that the fine of \$1,000 a day provided for such violations of the law shall not become effective for six months instead of ten days after publication of the judgment, which is the usual procedure.

TELEPHONES POLICE OF ACT

San Francisco Man Shoots and Kills His Wife.

San Francisco, Oct. 23.—"I've just killed my wife," said a voice over the telephone to police headquarters. "You better come get me in a hurry before I kill myself."

At the address given the police found Mrs. Alice Currier dead on the kitchen floor. George, her husband, told the police that his wife had attacked him in a delirium resulting from typhoid fever with a knife and a pistol and that he had shot her in self-defense.

As the woman lay on the floor the husband says she told him: "Well, George, you'd better finish me." So he shot her again. Currier formerly was an inmate of the Napa insane asylum.

TWO VICTIMS OF GASOLINE

Mother and Child Die From Burns in Oshkosh, Wis.

Oshkosh, Wis., Oct. 23.—Mrs. Otto Feuerstake and her four-year-old daughter died from burns resulting from the ignition of fumes of gasoline which had been poured in the kitchen stove.

A match was not applied to the contents of the stove until some time after the gasoline had been poured on the kindling and the room was filled with fumes. The result was the bursting forth of the flames which caught the clothing of the woman and child with fatal ending.

HOPES TO AGAIN

WHILE MOTHER IS IN JAIL

Two Small Children Perish in Burning Home.

Buhl, Minn., Oct. 23.—A mother and her woman neighbor under arrest, charged with drunkenness, and two babies left to the protection of a fifteen-year-old schoolboy, resulted in the burning of the two infants behind locked doors where the boy had left them after starting a wood fire in a kitchen stove.

Mrs. Nicholas Mattson, mother of the two children, a boy three years old and a girl eleven months old, was taken to jail along with her companion by a policeman sent to the Spina location for that purpose.

Stopping on the way to town the policeman took from school a fifteen-year-old son of Mrs. Mattson and told him to go home and care for the children.

The boy found the children cold and crying and lit a big fire in the kitchen. After half an hour he went out, locking the door. Returning in a few minutes he saw the entire inside of the house in flames.

CLARK FORGOT HIS UMBRELLA

Identified at Dynamite Trial as One Found on Railroad Bridge.

Indianapolis, Oct. 23.—A battered ivory handled umbrella that had survived an explosion was produced as a government exhibit at the "dynamite conspiracy" trial. Thomas Berger of Pittsburg, foreman of a bridge construction company, identified it as having been found after an explosion on a railroad bridge at Dayton, O., May 3, 1908.

It was the umbrella which, the government charges, Edward Clark of Cincinnati carried when he attempted to blow up the bridge and which he held over the dynamite to protect it from a heavy rain. The government asserts that Clark, after lighting the fuse, forgot the umbrella. Clark, at the opening of the present trial, pleaded guilty.

Declares Prohibition Is Only Means of Destroying White Slavery.

Portland, Ore., Oct. 23.—Resolutions were adopted by the National Woman's Christian Temperance union reaffirming its belief that absolute prohibition afforded the "only means of destroying the liquor traffic and its coordinate evil, white slavery; condemning the doctrine that the social evil is a necessary one; declaring segregation and regulation of vice wrong in principle and ineffective; approving equal suffrage, a minimum wage and equal pay and giving earnest support to the government for universal peace.

Colonel Roosevelt Arrives Safely at Oyster Bay.

TO TAKE MUCH NEEDED REST

Strenuous Patient Insists That There Is No Need Now for Constant Attendance of Physicians and the Medical Men Consider It Advisable to Respect His Wishes—Guards at Gates Prevent Any One Entering the Grounds.

Oyster Bay, N. Y., Oct. 23.—The quiet routine of life at Sagamore Hill was picked up again by Colonel Roosevelt and his family as though it had not been interrupted by the firing of a shot meant to kill the master of the house.

For the first time since he was wounded while in Milwaukee nine days ago Colonel Roosevelt was unattended by a physician. There was no one in the house except members of the family and servants and the colonel spoke hopefully of being able, after one day more of rest, gradually to resume his work.

Four physicians were with the colonel on his arrival at Oyster Bay from Chicago and after they had dressed his wound they told him the one essential was complete rest. If their directions are observed it is believed the former president's complete recovery is probable, although it cannot yet be said that he is entirely out of danger.

Dr. Alexander Lambert and Dr. Scurry Terrell, who accompanied Colonel Roosevelt from Chicago, were joined in New York by Dr. Joseph A. Blake and Dr. George E. Brower.

Wound Is Still Wide Open.

After examining the patient they said the wound was still wide open, spoke of the possibility of infection and added they were unable to say whether it would be possible for him to take up the work of the campaign again.

Colonel Roosevelt said when his wound had been dressed that there was no longer the need of constant supervision of physicians, because he was "all right." The physicians were doubtful at first whether he should be left alone and it was suggested that one of their number remain at Sagamore Hill. But the colonel insisted that it was unnecessary and the doctors concluded it would be wisest to accede to his wishes.

The parting injunction of the physicians was that Colonel Roosevelt must have absolute rest and must see no one. Mrs. Roosevelt agreed with them and took hold of the situation as she did in Chicago. Her first move was to place men at the gate, with strict orders that no one be admitted to the grounds. Friends, political workers, newspaper reporters and photographers flocked to the foot of Sagamore Hill, but did not succeed in passing the guard. After the rush was over the watch was withdrawn.

Although his physicians would make no promises Colonel Roosevelt was confident that he would soon be back in the campaign, at least to the extent of exercising general direction.

He expressed his intention of going to Madison Square Garden, New York, to speak on Oct. 30, even if he had strength to say only a few sentences.

SCORES WILSON ON TRUSTS

Governor Johnson Criticizes Democratic Nominee.

Trenton, N. J., Oct. 23.—Governor Johnson, making his last address in New Jersey during the present campaign here, sharply criticized Governor Wilson for his failure to do a little "trust house cleaning" by driving the Standard Oil, tobacco and "thirty or forty other trusts of which New Jersey is the mother" out of business.

The state laws gave the governor the right to take such action, declared the California executive, and he asked why the Democratic candidate had not taken some action against monopolies such as Governor Wilson has proposed in recent speeches.

MARSHALL ON IMMIGRATION

Tells Californians He Would Exclude Certain Aliens.

San Francisco, Oct. 23.—Governor Thomas R. Marshall of Indiana, Democratic vice presidential candidate, wound up a two days' campaign in California by advocating the exclusion from the United States of all aliens who are not of a character to amalgamate with the American people.

This argument was accepted with noisy approval by the audience which the Indiana executive addressed in San Francisco just previous to his departure for Oregon.

CONSIDER ROAD MATTERS

State Highway Commission Will Hold An Important Meeting at St. Paul, October 29th

The State Highway commission will meet October 29 at St. Paul to consider several important road matters, among them being the building of the main trunk roads in Northern Minnesota and the completion of concrete roads now being built in Winona county. These are the first concrete roads in northwestern states. The commission also expects to receive petitions for highways provided by the Elwell law, passed at the last session of the legislature. One of these relates to the proposed road from Duluth to St. Vincent, the building of which must be concurred in by all the counties through which it passes. St. Louis and Itasca counties already have acted favorably.

The bride was a telephone operator, enjoying a large acquaintance in Bemidji, where she has been a social favorite.

Mr. and Mrs. Hamilton will be at home to their friends after November 1st at 103 Juniper street, where the groom has a pleasant home nicely furnished.

The wedding was so quiet that many Bemidji people knew nothing of it and will probably get their first inkling of the event when they read it in The Dispatch.

The many friends of the bride and groom in Brainerd and Bemidji wish them much happiness and prosperity.

TIGHT CLOTHES FOR MEN TOO

Tailors In Convention Also Decide on Violent Colors.

Exhibits displayed at the joint convention of the Merchant Tailors' society and the Custom Cutters' league in Chicago show that men will not be permitted to wear what they please or what is comfortable. Form fitting coats and waistcoats with tight trousers prevail. Topcoats will be double breasted, with velvet collars and edges.

Much latitude is permitted in collars, for the waistcoat and scarfs of the most violent and riotous colors are proper, provided due attention is given to the matter of harmonizing with the tone of the other garments.

Along with peg top trousers will depart the coat that reaches halfway to the knees. Velvet edges on overcoats will be followed by a more radical change from the old styles if they take well this fall and winter. The dark gray frock with the black velvet edge also comes in for a revival this season.

BALL PLAYERS AFTER DUCKS

Hon. Mique Cantillon and Minneapolis Team Mates, Chasing the Duck at Pelican

The Hon. Mique Cantillon, manager of the Minneapolis baseball team and several of his hard-hitting team mates, came to Brainerd by train and automobile yesterday and then embarked in a large auto for Pelican lake where they will chase the festive duck from his lair.

"If the fellows with me will shoot ducks as fast as they play ball, we will come back loaded," said Mr. Cantillon, as the party hobnobbed with George West and secured from him the lay of the country.

In a short interview accorded this metropolitan sheet, Manager Cantillon said he had taken Pitcher Ruben Waddell to his farm at Hickman, Kentucky, where the ruben was to live all winter. The program for Waddell was to be plenty of fishing but not a drop of liquor and it is believed the eccentric twirler will thrive on this kind of menu.

It may be some test of endurance for the Minneapolis club to listen to Waddell's fishing stories when the pitcher returns to the club in the spring. To counter these stories most of the team is hunting chickens and ducks and may later go after a few deer and bear.

Mr. Cantillon said the reputation of Brainerd as a good baseball town was extending to the ends of the earth and that it was one of the best advertisements any town could get to be a topnotcher in the line of clean sport such as baseball always was and always should be.

Mr. Cantillon might have said some more, but the automobile honked and the bunch was getting uneasy and wanted to be off to the woods to commence the bombardment which was to cut a visible hole into the daily balance of Crow Wing county's duck supply.

DEFENDS THE ONE MILL TAX

R. C. Dunn, Author of the Good Roads Amendment, Replies to D. C. Henderson's Letter

PRINCETON MAN'S ARGUMENTS

Large Centers of Wealth Should Contribute to the Improvement of Country Roads

The Dispatch gives publicity to a letter from R. C. Dunn, of Princeton, in defense of his good roads amendment to the state constitution.

Princeton, Minn., Oct. 21, 12 Editor Dispatch:

There appeared in your weekly issue of the 18th instant an article on "Those Constitutional Amendments," by D. C. Henderson, of Nisswa, in which he refers to the Good Roads Amendment. Among other things Mr. Henderson says: "If this fund were to be raised by taxes levied on all property the value of which was increased by the improved roads or bridges I should advocate its passage with all my heart and gladly pay my quota when the improvement came my way. As now proposed it would benefit me financially in common with all holders of land titles, but it would be at some one else's expense; which I am not willing to accept without protest."

Roads are not purely local improvements. Certainly good roads add to the value of the adjoining property, but they are also of benefit to the general public. Let me illustrate: Supposing Brainerd is the nearest market point for the farmers in the southeastern part of your county—28-43, 29-43, 28-44 and 29-44; in order to reach Brainerd the farmers in these towns are obliged to travel across a road running east and west through the center of township 30-44; would not the farmers of those four southeastern towns be interested in the maintenance of a good passable road across 30-44? Would not the farmers across the line in Mille Lacs county be also interested in that 30-44 road if Brainerd was their nearest railroad town? Supposing further that 30-44 was sparsely settled and that several miles of the road in question was through a swampy country, costly to build and costly to maintain, would it be fair to saddle all the cost of building and maintenance upon the struggling farmers of 30-44? Would not a little state aid be appreciated by the farmers of that town?

Mr. Henderson's second contention is devoid of merit. If he will read the proposed amendment drafted by myself, he will perceive that there is no reference made as to what a county shall be obliged to expend in order to get state aid. That is where the proposed amendment differs from the present constitutional provision which limits the state aid to one-half the cost of constructing or improving any road or bridge. I had in view the interests of the smaller counties—counties with a low valuation I mean—when I drafted the proposed amendment.

In this age of automobiles people hundreds of miles remote from Crow Wing county may receive the benefit of good roads in your county. But I am not arguing in behalf of the automobiles. What I have in view is to give the farmer a better road from his farm to his nearest market town. Trunk line roads will soon follow.

From figures received from the tax commission I gather that the real and personal property valuation of the state this year will exceed \$1,345,000,000; the real and personal property valuation of Crow Wing county is in round numbers \$7,500,000. A one-mill state road tax would produce a revenue of \$1,345,000, which would average to each county about \$15,000. Crow Wing's share of the one-mill tax would be \$7,500. Now wouldn't two dollars for one be a good investment for your county? And it might be that some years your county would receive the maximum amount of three per cent of the fund, which would amount to \$40,000 and upwards.

I have not the time to deal with the other fallacious arguments advanced by Mr. Henderson, and will conclude by saying that if there can be no general road improvement save at the expense of the adjacent real estate, the prospect of our having a system of good roads in this state is exceedingly remote. My idea is that the large centers of wealth should contribute to the improvement of county roads, but Mr. Henderson wants the property benefited to stand all the expense.

There ought not to be a vote in Crow Wing county against the Good Roads Amendment—the first amendment on the pink ballot. (Signed:) R. C. DUNN.

AEROPLANE FLIGHT

Will Be Made Next Sunday If Sufficient Funds for Expenses are Raised

Dr. F. M. Bell, the famous military aviator, who is in the city with his great military aeroplane, has consented to fly his machine next Sunday afternoon, October 27th, if the people of Brainerd will contribute sufficient funds to defray the mere expenses incidental to putting on the flight.

Of course the Doctor could not be expected to bear this expense personally so the citizens are requested to come forward with donations in such amounts as they feel they can afford to give to insure this wonderful exhibition here.

From an educational standpoint alone Brainerd cannot afford to let this opportunity escape, for this is the only war aeroplane owned by other than governments themselves, and there are no military flyers operating them except from government flying fields where but few can hope to go to see them. Even then there are restrictions regarding the admission of the public.

Dr. Bell is here awaiting certain developments pertaining to the government and while here will exhibit his great military aeroplane to the public, where they can examine it at close range and hear it fully explained by the Doctor himself. Many of our citizens are availing themselves of this splendid opportunity and are taking their children with them to see the mammoth aerial warship which is now and will remain all this week on exhibition in the tent located at the corner of 6th and Laurel streets.

So many who have seen the great machine have requested the privilege of seeing it demonstrated in flight, that the Doctor has consented to fly it on Sunday afternoon, if the people will contribute enough money to defray the necessary expenses which will be incurred in doing so, as stated.

The Doctor wishes to say that, as there are so many persons in Brainerd whose employments or duties will not permit of their attendance on any other day except Sunday, he selected that day for that reason only. The exhibition will be conducted in an orderly, quiet and dignified manner and is intended to be elevating and inspiring and not to in any manner detract from the sanctity of the day. Subscriptions may be left with Mayor Dunn or may be subscribed to at the tent where the aeroplane is on exhibition. The time is short and no delay should be indulged in.

ST. CLOUD WINS FROM BRAINERD

Crow Wing County Eleven Gives a Snappy Battle to the Black and Orange Team

ST. CLOUD TELLS STORY OF GAME

St. Cloud Centered Attack on Day—Brainerd Given Credit for Its Indomitable Spirit

St. Cloud Times review of the game played by the Brainerd and St. Cloud high school teams at St. Cloud Saturday afternoon, October 19th:

Although the score fails to indicate the real spirit of battle which manifested itself every minute from the sound of the first whistle until the fourth period closed, the St. Cloud high school warriors Saturday afternoon met the most aggressive and hard fighting eleven they have faced this season. The Black and Orange men trampled upon the Blue and White from Brainerd, winning by a score of 40 to 0. In securing the two score points, Coach Milton's men were unable to loaf on the job but under compulsion showed their hands and played the game.

The first period was something of a surprise to the locals. Instructed before the opening of the game to uncork none of the newest and more complicated plays, Captain Larson directed his men through plays which were effective over Milaca and Mechanic Arts. They failed to prove convincing before the Crow Wing county students, however, and more choice stuff followed. The first period closed with a score of 0 to 0.

Going back into the game in the second period with determination, Alden, Spiering and Larson kept the rooters on their toes by repeated spectacular plays. Spiering at end was easily one of the most potent

FOR ROAD AMENDMENTS

State Superintendent of Public Instruction Schulz Urges Support of Amendment

State Superintendent C. G. Schulz has sent out a circular letter to all of the school officers calling their attention to two constitutional amendments that are to be voted on at the coming election relating to the public schools. The benefits to be derived from the passage of the two laws are self-evident and should receive unanimous support. The proposed laws relate to the amendment providing for a 1-mill tax for good roads and the amendment raising the educational standards of county superintendents.

The letter in part follows: "I ask, first, that you use your personal influence to secure affirmative votes for both of these amendments. By the adoption of these two amendments I feel that a great deal will be gained for the general forward movement of public schools and education in Minnesota.

"Two of the amendments to be voted on at the general election on November 5 have a direct relation to public schools and education. One amendment provides for a state 1-mill tax for roads and bridges. As a general state policy this proposed amendment is of vast importance to every citizen and every interest in Minnesota. It has a direct relation to the rural schools and to the movement for consolidation. When we have better public roads there will follow as a direct result an improved rural school. A state-wide movement which has the effect of improving our highways will promote the use and value of the public schools.

"Another relates to the office of county superintendent of schools. It provides for educational and professional standards for that office. The county superintendents now serving are in favor of it. Teachers and educators believe it wise and will support it. There is no opposition to it from any known source. This standard prevails in many states, and Minnesota should adopt it. I hope that all voters who are interested in the administration of public schools and in making the county superintendent's office more efficient, will vote 'yes' on this amendment."

U. A. Smith, Bridgeton, Ind., had kidney trouble for years, and was so crippled with rheumatism he could not dress without help. He started using Foley Kidney Pills, and says: "I began to get better at once, and now all my trouble has left me and I do not feel that I ever had rheumatism. I rest well all night and though 59 years old, can now do the work of a man of 35 years. I would like to be the means of others getting benefit from Foley Kidney Pills. Refuse substitutes. For sale by H. P. Dunn—Advt.

A Cure For Hunger.

The king of Italy was brought up splendidly by Queen Margherita. When he was a boy he used on certain days to lunch with the king and queen. One day the king was detained, and luncheon was considerably delayed. The prince ventured to remark that he was hungry and couldn't wait any longer for his meal. Crossing the room to a bookshelf, the queen took a copy of Dante and laid it before him, saying, "Read this and your hunger will all go."—London Graphic.

Mrs. J. N. Hill, Homer, Ga., has used Foley's Honey and Tar Compound for years, and says she always recommends it to her friends. "It never fails to cure our coughs and colds and prevents croup. We have five children and always give them Foley's Honey and Tar Compound for a cold, and they are all soon well. We would not be without it in our house." For sale by H. P. Dunn.—Advt.

The Laugh Leaked.

A teacher in a suburban school, hearing a smothered laugh, inquired who dared to be so rude. "Please, sir, it was me," answered a loud voice, "but I did not mean it." "Did not mean to do it?" queried the now angry teacher. "No, sir. I laughed up my sleeve, but I did not know there was a hole in my elbow."—London Telegraph.

CORROBORATION

Of Interest to Dispatch Readers For months Brainerd citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Brainerd residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Dispatch reader.

Mrs. W. F. Bourquin, 920 S. 7th street, Brainerd, Minn., says: "Doan's Kidney Pills, procured from H. P. Dunn's drug store, were used in my family about two years ago and they made a permanent cure of lumbago and kidney trouble. We publicly endorsed them at that time and since then have advised their use in cases of kidney complaint at every opportunity."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—Advt.

CRAWL TO CURE INDIGESTION.

Remarkable Cures Said to Follow a French Specialist's Suggestion.

Crawling on all fours after meals is the latest treatment for digestive ailments recommended in a monograph by a French specialist. He explains that the stooping position eliminates the "gastric pocket" and thus prevents the stagnation of food at this point. The exercise of the abdominal muscles is also, the doctor contends, an excellent means of stimulating digestion. A number of remarkable cures, particularly of nervous subjects, are described by the writer.

At Times. "Is Maud a good listener?" "Yes, when she hears herself talking."—Boston Transcript.

"The best value in a Mink set ever put on the market"

That's what our head man said when he got this set done.

We've been making fur garments and small pieces right here in the middle of the fur district for forty years.

We know values, and we all agree with the head man. And mind you—this Mink is Mink.

It was Mink when it walked on four legs.

It is guaranteed under the

GORDON Pure Fur Law

And you know what that means.

Ask your retailer about this set.

If he's the one that likes the whole truth about what he sells—he's pretty likely to handle Gordon Furs.

Write us a line asking for the Gordon Fur Book.

We will hold one of these Mink sets for you (if you say the word) or send it, through your fur man for you to look over.

We'd like to feel you agree with the head man.—And the rest of us.

The price of this set? Oh yes, \$115.00. Muff alone, \$55.00.
